COILING RATTLESNAKES.

Farmers in New York Having Endless Trouble With the Reptiles.

Raports from the remote parts of South Bristol, a Western Ontario County township, state that the rattesnake plague is the latest problem the farmers have to deal with. Around through Stid Hill and Stony Lonesome and other wayback hamter in the town, those who dwell on the hill-ides say they can not keep young chickens more than a day or so, at the most, after they are hatched and in many cases the snakes rob the mests of the eggs a soon as the heas nests of the eggs as soon as the hens

Henry Smith, one of the farmers was thunderstruck the other evening on going to the hen yard to find a vigorous fight going on between a rattler and a big hen whose brood had been attacked by the audactous reptile. Smith soon dispatched the marke which reasoned even for reptile. Smith soon dispatched the snake, which measured over two feet. space, Solini son dispatient with the space of the conducted by the young men and boys on different Sundays of late, but although they kill large quantities each time, there are yet remaining a walt number of the poisonous snakes that dwell in the secluded parts of the mountains in this, the only mountains part of the county. It has been known that rattlers were numerous in this section, but it is a matter of great surprise to even those cognizant of the fact that there should be such an unusual number there this spring. In years gone by the veteran "Doctor" Chase, of Canadaigus, who dealt largely in rattlessales oil, shipping it to all parts of the country, has made

PHOTOGRAPHY IN COLORS.

Positive Assertion That It Has Been Accomplished

The New York World says that photography in colors is assured. James W. McDonough, of Chicago, and Prof. Jolick, of Dublin, who were attempting to secure patents, agreed that the successful one should pay the undertaking would support the successful one. McDonough won after contest. Ten days ago the Natura Color Photographing and Printing company was incorporated as Richmond, Va., with a capital of \$500,000. The process requires a specially ruled acreen and specially ruled paper. A multi-colored screen, ruled by very fine lines, formed of dots or small particles is employed. The screen is The New York World says that fine lines, formed of dots or small par-ticles is employed. The screen is ruled with lines in these colors, about 300 to the lineh. This screen is placed in front of and in close contract with an orthochromatic plate, which is then exposed in the chamera to the object to be photographed. The ordinary block and white negative is thus ob-rained in lines corresponding to the tained in lines corresponding to the screen in register. From this negative a positive is made in the ordinar tive a positive is made in the ordinary way on glass or paper. September 3, 1883, Lee Fisher, bar-ber in the Caldwell building, this city, came here as a journey workman and engaged with Charlle Price who then was in the stand now occupied by Fisher. Price was given to drink and was in the stand now complet by Fisher. Price was given to drilk and striavagance, but Fisher was sober and economical. Soon Frice had to give up his bushness and Fisher succeeded him. Fisher is a fine workman and had attended closely to business, losing in sixteen years only thirty-four days. He was poon, but by the best of service and attention to business, saving and adding to his furniture, he has now one of the best furnished shops in the State.
